These are long-term investments and resources that provide value over multiple years:

- Property, Plant, and Equipment (PP&E): Manufacturing facilities, warehouses, retail stores, and office buildings.
- Intangible Assets: Trademarks, patents, and brand value—crucial for a brand like Reebok that relies heavily on brand recognition.
- Goodwill: Arises from acquisitions, reflecting the excess paid over the fair value of net identifiable assets.

Deep Dive:

Given Reebok's focus on innovation and brand strength, intangible assets can constitute a significant portion of its non-current assets. Evaluating depreciation and amortization helps assess how these assets' value diminishes over time.

Obligations due within a year include:

- Accounts Payable: Money owed to suppliers for raw materials, manufacturing services, or retail inventory.

Long-term obligations encompass:

- Deferred Tax Liabilities: Taxes owed but deferred to future periods due to timing differences.
- Lease Obligations: Long-term lease commitments, especially relevant as many retail spaces are leased.

Deep Dive:

A manageable level of non-current liabilities indicates prudent financial management, whereas excessive debt could signal potential risks.

Shareholders' equity reflects the residual interest in Reebok's assets after deducting liabilities. It comprises:

- Common Stock: Par value of issued shares.
- Additional Paid-in Capital: Excess amount paid by investors over the par value.
- Retained Earnings: Cumulative net income retained in the company rather than distributed as dividends.
- Accumulated Other Comprehensive Income: Unrealized gains or losses from financial instruments, foreign currency translation, etc.

Deep Dive:

A robust shareholders' equity base suggests financial stability and capacity to fund future investments or weather downturns.
